

Transforming Lives Redefining Education Honouring Achievements

Musicea Arts and Culture Council

Musicea Arts and Culture Council is a non-profit educational institution and examination council. Musicea Arts and Culture Council is a progressive international council for research, development, assessment, preservation and promotion of the arts. Musicea Arts and Culture Council has launched several pioneering initiatives aimed at improving the standard and practices prevalent in education and performance. The initiatives also enrich, empower, benefit and inspire both learners and educators.

The dedicated international board of professors and professionals continuously research to develop, deliver and improve an open, modern, balanced, comprehensive, innovative, professional global curriculum and assessment programme that is apt for 21st-century education along with preserving the aesthetics, traditional values and heritage. The aim is to assist the aspiration of millions and support them to develop the requisite skill and achieve their career goals.

Every year Musicea Arts and Culture Council supports thousands of candidates with affordable assessments. Hundreds of candidates avail the Scholarship Reward benefit. Hundreds of teachers are appreciating the Pension Benefit.

LETTER OF ACKNOWLEDGEMENT
From The EMBASSY of AUSTRIA
To MUSICEA ARTS and CULTURE COUNCIL

MESSAGE

The year 2020 marks the 250th birth anniversary of Ludwig van Beethoven, inarguably one of the most admired, respected and definitely most-recognised classical music composers of the world, who spent most of his life in Austria and is counted amongst the First Viennese School of Classical Music.

He was a genius with a disability that developed during the latter part of his life. Deafness did not prevent him from continuing his work: he created the famous Ninth Symphony during this phase of his lifetime (from 1822 to 1824). Composing such an unparalleled symphony - using nothing but his existing knowledge of the sound of music, the pure imagination of vocal as well as instrumental tone, his incredible talent of pursuing his way with all his focus on creativity, dynamism and everlasting quest for music, has immortalised him through this and other works in the world of classical music for years to come.

It is fitting that Beethoven, an artist who suffered and overcame extraordinary hardship, would be so integrally connected to this year of unprecedented human challenge, the havoc wreaked by the COVID-19 pandemic and the ensuing lockdown.

Already long before the coronavirus crisis, it is well known that music can be an effective remedy against loneliness, diminishing enthusiasm and zeal. Following this motto, despite the setbacks, efforts have begun worldwide to ensure the survival of musical activities. These include online broadcasts of performances.

I am particularly glad to know that in India, Musicea Arts and Cultural Council is also pursuing this movement of digital online performance projecting so truly the sense of community in times of increasing isolation. While wishing them success for their endeavours to pay tribute to this all-time implausible musician in their forthcoming YUVA Music Festival, I also sincerely hope and wish everybody to remain safe and healthy.

(Brigitte Öppinger-Walchshofer)
Ambassador of Austria

Why Musicea Arts and Culture Council?

Going with the vision of 21st-century education and taking advantage of the digital era, Musicea Arts and Culture Council is a progressive examination board to offer an open curriculum. Musicea Arts and Culture Council offer pathways and resources for learners and teachers that help develop skills, provide goals and encourage progress. Acknowledging that there is no single methodology, Musicea Arts and Culture Council offers a graded curriculum. The core philosophy revolves around innovation, ease and flexibility, and personal preference.

Musicea Arts and Culture Council is synonymous with ethics, value, practice, purpose and offering. Initiatives offered by Musicea Arts and Culture Council are reforming and transforming the music and arts education sector. Some of them are pathbreaking, life-changing, guided to protect the national interest, to support the cause and add values. Following are some of the unique features. Kindly find your reasons to join the growing family of Musicea Arts and Culture Council.

Scholarships

Going with the vision to support talented candidates, Musicea Arts and Culture Council offer full Scholarships to candidates recommended by their teachers.

Open and Progressive Syllabi

Musicea Arts and Culture Council offer a range of choices that enables candidates to learn their favourite music with joy. The core philosophy is to allow candidates to express their creative ideas through the scope of improvisation and present original compositions. Candidates are free to select their favourite songs or pieces.

Say NO to Expensive Books

Gone are the days of buying expensive books for the sake of examinations. The digital revolution has ushered in many new opportunities. One significant example is to purchase online. Candidates may select their favourite items from various renowned publications and digital platforms. Education should be fun and not an expensive affair. Millions of candidates across the globe are joyfully performing their favourite items for assessment. A new approach apt for 21st-century music and arts education.

Mr Cesare Bieller, Hon'ble Consul General of Italy

LETTER OF ACKNOWLEDGEMENT
From The CONSULATE of JAPAN

KOLKATA-700 040

21 June 2021

Mr. Surendranath Majumdar
Founder, Yuva Music Festival
Director, Musicea Arts and Culture Council

Thank you very much for having me as chief guest at your virtual concert on the occasion of World Music Day and International Yoga Day. It is my pleasure to be a part of this venture where musicians from different countries and varied backgrounds can meet, share ideas and exchange knowledge.

I sincerely appreciate the efforts of your organization that is contributing to encouraging the zeal of all music lovers and providing them a platform to express themselves. This virtual concert will also provide the audience an opportunity of recreation from the safety of their homes. I know that realizing a large-scale program virtually is challenging, but on the brighter side it has a wider reach and enables participation irrespective of location. I believe this practice is an advantage born out of the pandemic situation and it will prove to be helpful to everyone in the future.

I sincerely wish the very best to all the participants and organizing team members and believe this program will receive high appreciation. I hope you will keep organizing such programs of international nature and continue with your monthly digital concerts as well, so as to keep nurturing talent and promoting people to people exchange across all levels of society. Thank you once again.

Best wishes,

A handwritten signature in black ink, which appears to read '中村 裕' (Nakamura Yutaka).

NAKAMURA Yutaka
Consul-General

Provide Affordable Assessments

Musicea Arts and Culture Council believes that everyone should receive a fair opportunity to learn and receive affordable assessments. Musicea Arts and Culture Council examination fees are at least 30-40% lower than other international examination boards.

Dual Language Examination for Indian Candidates

Millions of Indian students do not understand English. Many cannot properly communicate in English. They feel embarrassed, and their confidence dips as a result. They feel very awkward facing an unknown foreign examiner whose English accent is quite different from Indian English. Sometimes there is an external person who acts as a mediator or communicator. Musicea Arts and Culture Council is aware of this burning issue. For the first time, there is an international examination board that offers examination in Hindi and English. Now candidates can perform with confidence without depending on others.

Friendly Examiners and Dynamic Marking

A panel of friendly and trained examiners delivers their services. All examiners, if required, will communicate and examine using multiple languages. The aim is to offer candidates a positive experience that will enable them to perform confidently and without the fear of any miscommunication. A dynamic marking scheme ensures precise and specific feedback along with the marks.

Examination at your preferred date and venue

Going with the vision of fast and preferred access, Musicea Arts and Culture Council offer both digital and physical examination. Candidates, local schools, teachers or representatives have the power to select the mode, date and venue. Now candidates save time, energy and money by not travelling to different cities for their examination. This system is helping thousands of teachers and students across the globe. Candidates perform from the comfort of a known venue rather than performing from an unknown place. The result is always positive.

21st Century Music and the Arts Education

Musicea Arts and Culture Council offers popular global disciplines and genres designed with the sole purpose of reducing the cost of assessments and creating value for 21st Century Music and the Arts Education. Education should start at an early age. Going with the vision that all children should learn music, Musicea Arts and Culture Council is the first board to offer a graded curriculum for Kodály Children Music Education.

Sharing the rich traditions of Indian Music and the Arts

With every passing day, citizens across the world are becoming more curious to know and experience India. To share and promote Indian arts and culture, Musicea Arts and Culture Council is the first board to offer curriculum specific to India like Bollywood and Indian Traditional.

भारतीय | INDIAN
सांस्कृतिक | COUNCIL FOR
सम्बन्ध | CULTURAL
परिषद् | RELATIONS

(विदेश मंत्रालय, भारत सरकार)

(MINISTRY OF EXTERNAL AFFAIRS, GOVERNMENT OF INDIA)

On behalf of the Indian Council for Cultural Relations, I congratulate Musicea Arts and Culture Council for celebrating International Yoga Day and World Music Day together with a digital concert on 21st June 2021.

The word *yoga* is from the Sanskrit word *Yuj* which means 'to join' or to unite. The *union* referred to is that of one's mind with one's body. Self-integrating with the surroundings and nature. And, finally, individual consciousness with the universal consciousness. Today the world recognizes the importance of Yoga to maintain a healthy lifestyle. Many individuals and organisations are collectively working to create awareness and provide the benefits of Yoga. I feel happy to say that the Govt. of India encourages the world to make Yoga a part of their daily routine.

Music is a natural healer. Every community has their musical legacy. In India, we are lucky to have two forms of classical music and many forms of folk music. There are many forms of regional, devotional and film music. Everyone enjoys music and wish they can sing. The vibrations of good music create a positive and refreshing environment. There is the immense value of music in the growing up days of a child. In the coming years, I am sure that many more children will learn classical and traditional music and spread happiness throughout the country and the world.

Both Yoga and Music are ancient practices. Both complement each other and improves the quality of life. Yoga and Indian Music is popular in the world. Every year an increasing number of people across the world are experiencing, learning and including them in their practices. I am happy to observe that Musicea Arts and Culture Council is preserving, nurturing and promoting the rich heritage of Indian culture. The idea to celebrate International Yoga Day along with World Music Day is unique. Both are necessities for a healthy mind and body. I am also happy to know that the digital concerts are showcasing the young Indian talents across many Indian states including, the smaller cities and are also engaging with the best musical practices of the world. I wish Musicea Arts and Culture Council good luck and pray for the success of the festival. I hope initiatives like these will shape the future of many more young minds in the coming months and years.

A rise in demand for professionally trained teachers

The new education policy in India starts a new chapter for education. In the recent future, there will be an increase in demand for trained and certified teachers. Musicea Arts and Culture Council offers training programs for existing teachers and the training of new teachers. Musicea Arts and Culture Council is the first board to offer qualification diploma for teachers across several disciplines. One of them is the Kodály Music Teaching Diploma for teachers looking forward to teaching music to children from three to ten years of age. Kodály music is the most popular, joyful and scientific international program offered across many countries.

National Framework for Music and the Arts Education

Every developed country proudly has one or more education and evaluation system for music and the arts. There are several boards in India too, but no board caters to both national and international requirements. Musicea Arts and Culture Council is India's first national as well as international education and evaluation institution. Now India joins the proud league of developed nations. The diverse range of curriculum is supporting the educational requirements in India and several other countries across continents. Under the able supervision of the honorary council of national and international experts, Musicea Arts and Culture Council offers examinations in several countries across different continents.

To reduce Indian Currency going to Foreign Countries; Contributing to India's GDP

All Indians aspire that India should become a superpower. Most citizens are clueless about how they can participate in the process of nation-building. Now, candidates, teachers and organizations may contribute directly to nation-building. Examination fees deposited to Musicea are used only in India to create job and employment in India. The British boards are growing exponentially with hard-earned Indian money without contributing to the Indian national cause. Most of the job and employment generation are in foreign countries. After seventy years of Indian independence from the British, many Indians are still blindly following their system without personal profit but helping them to become richer at the cost of hard-earned Indian money. As Indians, we lose out on every account. The Indian Government misses out on TAX collection as the foreign entities follow British laws. The result hurts the Indian economy and GDP. Join the Musicea Arts and Culture Council and play an active part in improving the Indian economy and nation-building.

Empowering Educators

Going with the mission to create job opportunities with dignity and honouring achievements, Musicea Arts and Culture Council offer qualified, experienced and aspiring professionals from India to join the proud, dynamic and growing institution as examiners, academic consultants, representatives, entrepreneurs, influencers and contributors. Grab this opportunity to engage, learn, associate, practice and work with the best minds across the globe. The vision is to support Indian educators with jobs, skills and knowledge to become international professionals.

Pension Benefit

The mission of Musicea Arts and Culture Council is to include educators as lifelong shareholders. Teachers receive rewards for every contribution. Two of the pioneering initiatives are the Pension Benefit Scheme and Honouring Achievement Scheme.
